InteropONE™

A **BK** ONE SOLUTION

On-Demand Interoperability for Unified Communication

Break Down The Push-To-Talk Silos
On-demand PTT with any smartphone user over any carrier, WiFi, or LEO SatCom.

True Local Control
With the InteropONE™ application on their smartphone, an emergency manager or event coordinator can create a dynamic group 'on the fly' including their coworkers as well as anybody with an active smartphone.

Cloud-Based and Built Around Three Types of Users

Standard User
A subscriber with the ability to create on-demand groups including other subscribers within their organization.

Primary User
A subscriber with Standard User features PLUS the ability to include guests outside of their organization.
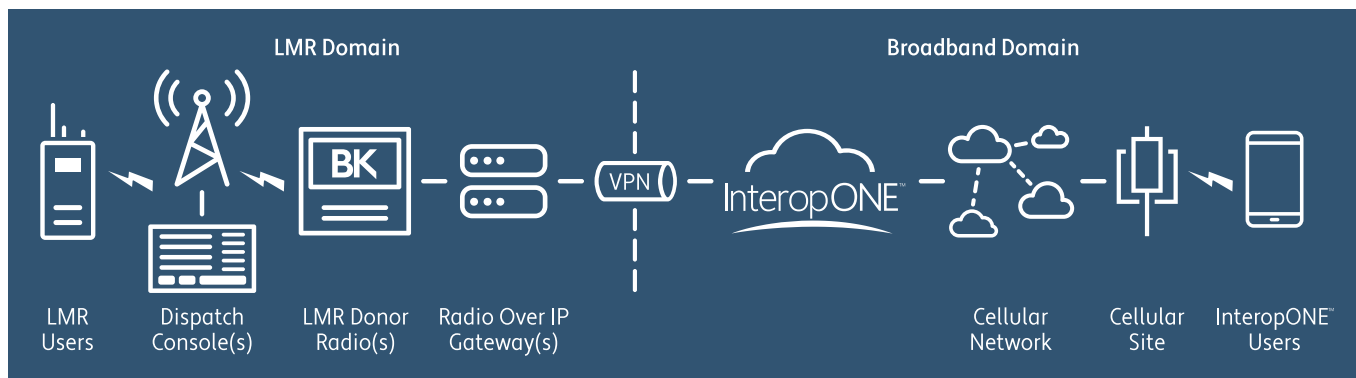

Guest User
A person with a smartphone and active data subscription that has been invited to participate in a group.

InteropONE™ Enables an Empowered Approach to Unified Communications

Interoperate with Your LMR System
InteropONE™ supports interoperability with your LMR system using donor LMR radios and Radio over IP (RoIP) gateways securely connected to the InteropONE™ system using a Virtual Private Network (VPN).

LMR Domain — Broadband Domain

LMR Users | Dispatch Console(s) | LMR Donor Radio(s) | Radio Over IP Gateway(s) | VPN | InteropONE™ | Cellular Network | Cellular Site | InteropONE™ Users

InteropONE™ Delivers

- ✓ **Ease of use - quickly create user groups on demand from your smartphone**

- ✓ **Local control in the hands of Incident Commanders and Emergency Management personnel**

- ✓ **No need to pre-provision gateways**

- ✓ **Service over any carrier network or WiFi**

- ✓ **A cost-effective pay-as-you-go billing model**

Fast Authentication Process

3 Simple Log In Steps

1. Enter the organization ID received from the welcome SMS into the login window.

2. Enter your phone number into the second login window.

3. Enter the activation code received from the SMS into the next login window.

A Mobile Device Application
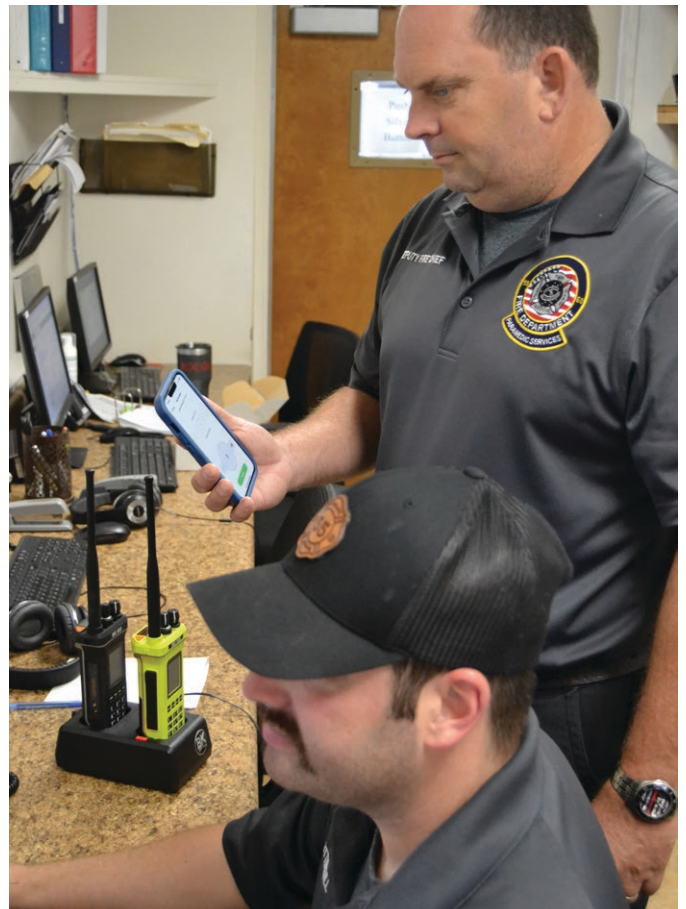

iOS

Requires iOS 15 or later

Language: English

![Download on the App Store]

Android

Requires Android 10 or later

Language: English

![Get it on Google Play]
